General Information

Dr. Paolo Manzoni, MD

Secretary, Scientific Committee,
the “Fondazione Crescere Insieme al Sant’Anna-Onlus”
Scientific and Research Neonatology Foundation
Executive Chair, Organizing Committee

WELCOME FROM THE EXECUTIVE CHAIR OF THE ORGANIZING COMMITTEE

“Dear Colleagues and Friends,

The Division of Neonatology and NICU of Sant’Anna Hospital in affiliation with the “Fondazione Crescere Insieme al Sant’Anna- Onlus” Scientific and Research Neonatology Foundation is proud to welcome you to the 3rd edition of the “International Conference on Clinical Neonatology”, held in Torino, Italy on May 24-25-26, 2012. In line with the spirit of the two previous, succesful editions, this conference’s goal is to present the latest scientific evidence on the care, treatment and follow-up of preterm neonates. Once more, the congress is going to be a multidisciplinary program of neonatal and perinatal research and practice, giving the opportunity to interact and share clinical and research experiences with colleagues in the Neonatology community.

Prominent international speakers from all the fields of Neonatology and Pediatrics will provide comprehensive, up-to-date, research-based answers to the most frequent questions that arise at patient’s bedside in everyday practice. Torino was the first capital of Italy and 2006 Winter Olympics host city, and in 2011 has been the core and capital of all events celebrating the 150 year anniversary of Italian Unity and Independence.

Torino is a splendid venue for this meeting and will give all the delegates the opportunity to enjoy the unique charme of its beautiful baroque buildings, old churches and renowned monuments, as well as with the unforgettable taste of the local cuisine specialties like chocolates, truffles, and ravioli – not to mention the famous wines and spirits.

Once more I am happy to welcome you to this exciting event! As the Chair of the Organizing Committee, I wish you a nice and productive stay.

THE FOUNDATION

The Foundation: “Crescere insieme al Sant’Anna-ONLUS” and its Scientific Committee Since its institution in 2005, the Foundation “Crescere insieme al Sant’Anna-ONLUS” has set its objectives as being “the promotion of development and well-being of newborn babies and their families, through all suitable ways, including research and dissemination of knowledge in the field of neonatology...”. To this purpose, together with its long standing associate “Juventus Football Club” and through the Communication and Marketing Agency “Eurelab”, the Foundation has developed a series of information, promotion and fund raising events that have always pursued the objective of bridging together society and the preterm newborns and their families. The setting up of a scientific committee which supports both research and education in neonatology focuses on the aim of involving a large part of society in the effort of improving knowledge in the neonatal field and care for the smallest premature babies.

WELCOME FROM THE PRESIDENT OF THE SCIENTIFIC COMMITTEE

“Dear Colleagues and Friends,

As the head of the Neonatology and NICU Department at Sant’Anna Hospital and founder of “Crescere insieme al Sant’Anna-ONLUS”, I am very happy to support again my colleague Paolo in the organisation of the third edition of this Conference that falls within the Foundation’s objectives and that also allows us to consolidate research into neonatology through the sharing of knowledge between all those who are part of this branch of medicine. I am proud to welcome you once more in Turin, which is well known for its Baroque architecture, imposing monuments and sites, picturesque squares and porticos as well as its local culinary delights.”
