

NSW Agency for Clinical Innovation

Leading Innovation in Drug and Alcohol

APSad – Wednesday 3 November 2016

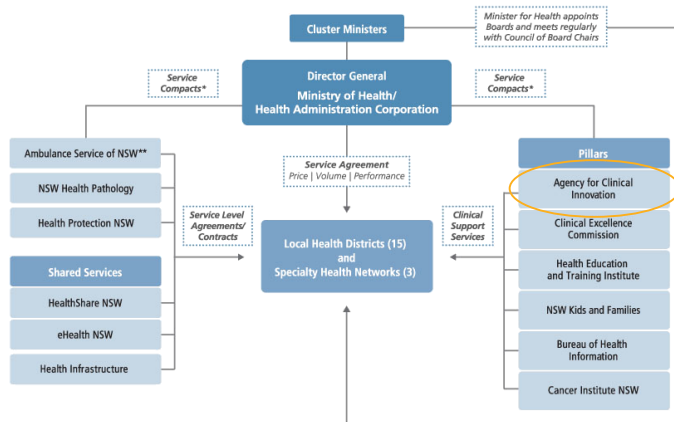

Antoinette Sedwell | Drug and Alcohol Network Manager | ACI

Collaboration.
Innovation.
Better Healthcare.

What is Innovation?

The process of translating an idea or invention into a good or service that creates **value**

Our Health System

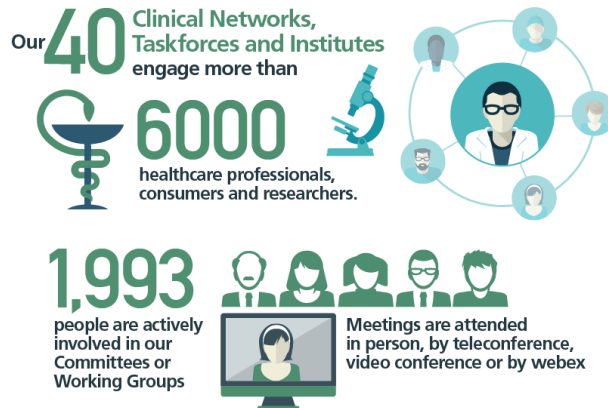

Collaboration. Innovation. Better Healthcare.

The ACI works with clinicians, consumers and managers to design and promote better healthcare for NSW.

Our Networks

What do we do?

Why a D and A Network?

- Established January 2015
- To get D and A stakeholders across NSW talking and ***working together***
- Improve ***quality*** and ***efficiency*** by sharing information and reducing duplication
- Foster collaboration, ***innovation*** and integration
- A forum for people to work collaboratively across clinical specialities and regional and service boundaries
- **Opportunity to contribute to the development of innovative approaches to improve the delivery and experience of healthcare**

Drug and Alcohol Network Structure

Network Co-Chairs

Tony Gill

Jo Lunn

3 Working Groups

- **Connected System** - Facilitating greater communication and connectivity between services, a platform to share information, reduce duplication and facilitate an integrated system
- **PHN** -Supporting a strong partnership between specialist services and the PHNs, support continuum of care through improved collaboration and integration
- **Innovation**-Promoting and supporting innovation in D and A, **profiling** innovations already happening across the system and **stimulating** and supporting new activity in the field
