

Jeremy Bonfini,

Executive Vice President, Global Services
HIMSS

Jeremy T. Bonfini is Executive Vice President, Global Services, for HIMSS, a global, cause-based, not-for-profit organization focused on better health through information technology (IT). HIMSS leads efforts to optimize health engagements and care outcomes using information technology.

At HIMSS, Bonfini is responsible for the development of the Society's programs outside of North America. During his tenure, he has grown HIMSS' international presence through the establishment of offices in Brussels and Singapore.

Before joining HIMSS, Bonfini served as Intel Corporation's Worldwide Digital Health Policy Manager. In this role, Bonfini contributed to European Union developments on eHealth interoperability, facilitated advancement of a national EHR Standard in the People's Republic of China and supported approval for medical devices using WLAN/Bluetooth in Japan.

Earlier in his career, Bonfini served as an Education Policy Analyst in the House of Commons in London, England. Upon returning to the United States, he represented the National Mining Association in Washington, DC, and worked with the U.S Representative from Ohio's 18th Congressional District to provide constituent services and advocated for legislation favoring economic development.

He is a magna cum laude graduate of The American University, Washington DC, with a Bachelors degree in Political Science and a member of the Phi Beta Kappa Society.
