Medicaid State Plan Requirements

- States must follow the rules in the Act, the Code of Federal Regulations (generally 42 CFR), the State Medicaid Manual, and policies issued by CMS.
- States must specify the services to be covered and the “amount, duration, and scope” of each covered service.
- States may not place limits on services or deny/reduce coverage due to a particular illness or condition.
- Services must be medically necessary.

• Third party liability rules require Medicaid to be the “payor of last resort”
• Generally, services must be available statewide
• Beneficiaries have free choice of providers
• State establishes provider qualifications

Basic 1915(c) Waiver Facts

• There are approximately 300 1915(c) waivers in operation across the country, which serve more than a million individuals.

• 1915(c) waivers are the primary vehicle used by States to offer non-institutional services to individuals with significant disabilities.

**Eligibility & Level of Care:** Individuals must be Medicaid eligible, meet an institutional level of care, and be in the target population(s) chosen & defined by the state.

**Assessment & Plan of Care:** Services must be provided in accordance with an individualized assessment and person-centered service plan.

CMS approves a new waiver for a period of 3 years. States can request a period of 5 years if the waiver will include persons who are dually eligible for Medicaid & Medicare.

- States may request amendments at any time.
- States may request that waivers be renewed; CMS considers whether the State has met statutory/regulatory assurances in determining whether to renew.

• May include State-defined risk factors
• Needs-based criteria are not:
  – descriptive characteristics of the person, or diagnosis
  – population characteristics

1915(i) Needs-Based Criteria

- Eligibility criteria for HCBS benefit may be narrow or broad
