

Legend: Clinical General Intermediate

Tuesday 27 March 2018						
08:45 - 09:30	Registration and coffee					
09:30 - 11:00	Athene B/C					
	<b>Plenary session</b> <b>Opening</b> Peter Setlow (USA) - Bacterial Spore Germination: "Still Surprises After All These Years" Elaine Tuomanen (USA) - Bacterial communication with the brain Kiem Award ceremony					
11:00 - 11:30	Coffee/tea break					
11:30 - 13:00	Athene B/C	Sydney	Room 4/5	Room 6/7	Room 8/9	
	Surveillance of antimicrobial resistance, pathogens and plasmids in the clinic and the environment	The public health risk of Hepatitis E virus in a Dutch perspective	Climate change microbiology	Fundamentals of Clostridia	Maternal and neonatal vaccination against viruses and bacteria	
13:00 - 14:00	Lunch @ Exhibition hall					
13:00 - 14:00			Room 4/5			
			KNVM Business Meeting			
14:00 - 15:30	Athene C	Athene B	Sydney	Room 4/5	Room 6/7	Room 8/9
	Everything you want to know about urinary tract infections, infection control and infection challenges in Dutch nursing homes	New developments in the treatment of HCV infections	Eukaryote-microbe symbiosis beyond the human body	Microbial ecology: colonization resistance through host-microbiota communication	Geographical variation in vaccine response	Clinical microbiology
15:30 - 16:00	Coffee/tea break					
16:00 - 17:30	Athene C	Athene B	Sydney	Room 4/5	Room 6/7	Room 8/9
	Clinical significance of microbiota changes and <i>Clostridium difficile</i> infections	Epidemiology and pathogenesis of emerging flaviviruses and orthohantaviruses	General microbiology	Human microbiota throughout life	Speeding up vaccine development: about human challenge studies and correlates of protection	On microbiome education & citizen science, and scientific citizenship
17:30 - 18:30	Drinks					
18:30 - 20:30	Dinner					
20:30 - 22:00	Poster session					
22:00 - 22:15	Poster Award ceremony
