

BINI Industry & Masters Workshop 2015

For the 21st anniversary of the BINI Conference, a dedicated Industry Session will be held on the morning of Friday January 16th from 11 am. The objective of this session is to engage researchers with industry at an early stage of their careers. The session is specifically aimed at **Masters students and above, attendance for whom is free for the morning session**. The workshop will comprise of three components: a poster session, a careers session and finally, a keynote lecture.

Poster presentation: Master's level students are invited to submit posters to this session. The purpose of this session is twofold: 1) To offer students the opportunity to showcase their research to a national audience 2) To offer industry sponsors the opportunity to explore the breath of research activities underway at graduate level. An adjudication panel, made up of academics and industry representatives, will select the best poster presentation.

Careers session: This session will involve industry sponsors who will receive an exhibition space to demonstrate their latest technologies and engage with students. Additionally, industry sponsors will receive a presentation slot whereby they will provide an overview of research activities and employment opportunities at their company.

Keynote lecture: Students will also be invited to attend the opening keynote lecture of the BINI conference given by Dr. John O'Dea, Founder & CEO of Crospan and former President of Engineer's Ireland.

To register for this free event please email your name, college name, degree programme, poster title and specialist area (biomechanics, medical device design, tissue engineering etc.) to biniposters@gmail.com by 15th December. Those who do not wish to submit a poster are also welcome to attend but must also register.
