NSW Perinatal Post-mortem Service

Care, compassion and expertise

Angela Morgan

NSW Health Pathology Redesign Lead

for all of **trust**

Discover a problem

What do we already know?

What are the issues?

What are the opportunities

Design a solution

How will we respond to the issues and opportunities?

What are all the promising solutions?

Test the delivery
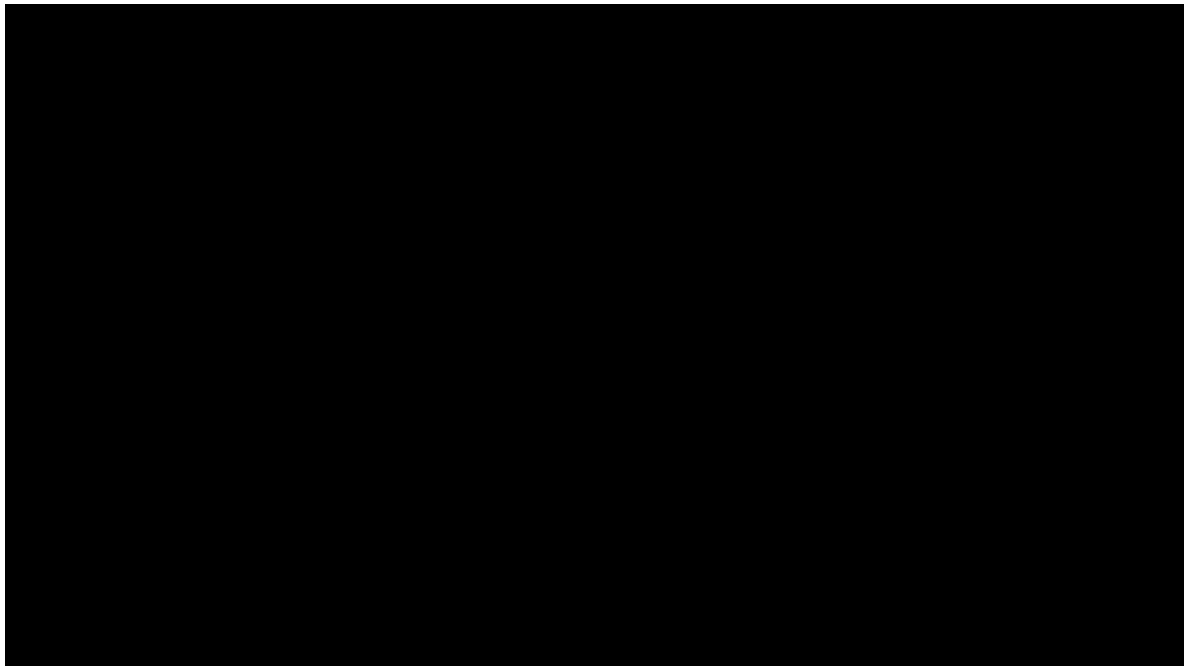

How are our solutions performing?

What needs to be improved or adjusted?

for all of **us**

Discover the problem
(the case for change)

- *Every year, almost 800 families in NSW will experience the perinatal or stillborn loss of their baby*

- *This does not include loss in early pregnancy*

- *Perinatal deaths reflect the health of our community*

for all of
US

Design the solution

- *The right people*
- *The clearest vision*
- *The right information*

Redesign methodology

The redesign methodology integrates various tools and techniques to develop robust improvement projects. It focuses on developing solutions to address root causes and provides participants with implementation skills to achieve sustained outcomes.

COLLABORATION, INNOVATION, BETTER HEALTHCARE.

SUSTAINABILITY · IMPLEMENTATION · SOLUTIONS · DIAGNOSTICS · INITIATION

for all of
