DESIGN BASICS MASTER CLASS (2-DAY INTENSIVE) *TAUGHT BY SHIRLEY PADEN*

Date & Time

May 13-14• 9am-4:30pm

Skill Level: Intermediate

Price

\$300

Materials Fee

N/A

Prerequisites: A basic knowledge of knitting

Description: In this class, you'll learn to custom-make your own sweater patterns. You'll work through organizing the components involved in constructing four different types of garments and two different types of necklines. Two garments are designed with round necklines and two with V necklines. The first is a pullover designed using the Classic Body silhouette that is based on the bust measurements. It is worked straight to the armholes; then the armholes and neckline are shaped. The second garment is also a pullover. It is designed using the Double Tapered Body silhouette. This sweater type is shaped along the natural curves of the body to the armholes; then the armholes and neckline are shaped. The third and fourth designs are cardigans. This is a bonus feature of the Retreat format of the Design Master Class. Cardigan Design is usually taught exclusively in the Cardigans Class. The first Cardigan design is planned using the Classic Body silhouette with a round neck. The second cardigan is planned with a Reverse Taper Body silhouette. This garment shape is trapezoidal. It is wider at the bottom than at the top. It is tapered along the sides from the bottom measurement to the bust measurement; then the armholes and neckline are shaped. All four designs will be planned with set-in sleeves. You'll work through planning a tapered sleeve with a set-in cap and also be walked through accurately measuring a swatch, taking body measurements, writing a pattern, and calculating yarn amounts.

Students Should Bring: Tape Measure, 2 Pencils with erasers, Writing Paper, Calculator, Sketch of Sweater, Swatch, Swatch Calculations, ball bands.

Homework: The students are asked to select a sweater silhouette and plan a design, then sketch the planned garment. Next, select the stitch pattern and the yarn. When that is done, knit one or two swatches. *Note:* Swatches should be approximately 8"x 8" in order to achieve a more accurate garment knitting gauge.

DOMINO KNITTING CLASSIC AND NEW (2-DAY INTENSIVE) TAUGHT BY KATRINE WOHLLEBE

Date & Time

May 13-14• 9am-4:30pm

Price

\$300

Materials Fee

\$10 (paid directly to
teacher at event)

Skill Level: All Levels

Prerequisites: Knit and purl, casting on and binding off,
increasing and decreasing.

Description: "Domino Knitting" is a term invented by a Danish knitter to denote a particular kind of modular or "patchwork" knitting. Danish knitting designer Vivian Høxbro did not invent either the term nor domino knitting itself, but she certainly refined the technique, giving a huge boost to modular knitting with her book [Domino Knitting](#) and her collaboration with Harrisville Designs in New Hampshire. On the first day of class we will be working with the classic, basic techniques and shapes as taught by Vivian, namely squares (created in a particular way!) and strips. We will be exploring how the shaping itself occurs and how shapes can be joined together to form surfaces in various ways. On the second day of class, we'll be on a steep learning curve, broadening our repertoire and understanding of domino shapes a la Vivian, adding hearts, trees, kites and stars to the basic square. We will be swatching with the different shapes, puzzling them together in various ways to create flat surfaces or perhaps 3D structures. Be prepared to learn and have fun!

Students Should Bring: Smooth sport or DK weight yarn in approx 10 different, preferably rather bright, colors (not necessarily the exact same yarn in all colors, but approx the same weight, and leftovers are fine - rather small amounts are needed), needles of your choice to match the yarns (though we will be knitting back and forth only, double points can be useful), squared paper and pencil, colored pencils, usual knitting utensils. Be prepared to share your yarn so as to give all class participants a greater choice of yarn for swatching.

DRAPING A PATTERN (2-DAY INTENSIVE) TAUGHT BY LILY CHIN

Date & Time	Price	Materials Fee
May 13-14• 9am-4:30pm	\$300	\$5 (paid directly to teacher at event)
Skill Level: Advanced	Prerequisites: Must have done garments before.	

Description: There are many ways to draft an original pattern. Draping is one of them and is never talked about nor covered in knitting. With commercial knit fabric, we will construct garments right on ourselves (think Project Runway). First, we'll watch a demonstration, figure out the process and how to use the tools. We'll then build garments on each other in groups to create a perfect fit and use this "mock up" as a basis for our knitting. We will transpose the pieces onto gridded marker paper, then plug in our gauge and figure out areas of simplification. We'll also find out how to chart the irregular shapes. Motifs may be previewed, stitch patterns "tried out" and details such as collars and even pockets can be tested! Branch out into non-standard garments, such as those with shirring or ruching or pleats and/or asymmetry.

Students Should Bring: Fabric magic marker or Sharpies that will write on fabric. Sewing thread and needles, tape measure, VERY SHARP scissors, straight pins, small stapler. HEAVY weight knit fabric similar to your handknitting fabric like sweatshirt fleece or polar fleece, with any kind of GRID markings, anywhere from 24-30" • in width according to how large you are, 3 yds length. Use SINGLE thickness of fabric as most fabrics are in double-thickness at any given width. Pencil, sharpener, eraser. Several sheets of knitter's gauged graph paper, perhaps a few sizes/gauges. Must wear leotard or tight camisole in class for proper measurement! VERY IMPORTANT! *Optional:* using any commercial sewing pattern of your choice for any style, cut and baste pieces and bring it in. It helps to make the next size larger.

STRICKMUSTER: THE BEAUTIFUL TWISTED STITCH PATTERNS OF AUSTRIA (2-DAY INTENSIVE) TAUGHT BY CANDACE EISNER STRICK

Date & Time

May 13-14• 9am-4:30pm

Price

\$300

Materials Fee

\$2 (paid directly to teacher at event)

Skill Level: Advanced

Prerequisites: You must be a "conventional" knitter (ie: knit by taking the stitches off the left hand needle and transferring them to the right hand needle) in order for this technique to work correctly.

Description: These gorgeous patterns wind and twist around each other in complicated and intricate designs, but actually are done using only two basic techniques without the use of a cable needle. We will sample some of the 174 charming patterns from Maria Erlbacher's book while learning how to read the charts. Once you are comfortable with working the charts, you'll start a small project of either a hat, mittens, socks, or hand warmers.

Students Should Bring: about 2 ounces of smooth textured, light colored wool yarn in worsted weight. Please note: yarns with nubs, slubs, fuzz, or thick and thin is not appropriate, nor will variegated yarns show the pattern well--some good brands are Brown Sheep Lamb's Pride, Cascade 220-- and appropriately sized double pointed needles, about one dozen stitch markers, and Post It Notes or some kind of system for keeping your place on a chart. Having the correct yarn to learn with is very important! If you are comfortable to work in the round using 2 circulars or 1 long circular (magic loop method), please bring those needles. For projects: 2 skeins (100 gms) of Louet Gems Sport Weight Merino yarn for mittens, 1 skein for hat or hand warmers, 2 skeins Louet Gems Fingering Weight Merino for socks. Please bring an assortment of needle sizes for working in the round . Other types of yarn will work, but please email me at Candace@Strickwear.com about it before coming to class with it. I will have Louet yarn available for purchase in the classroom. Sport weight at \$16 per skein, Fingering weight at \$10 per skein. Please let me know ahead of time, via email, if you think you will be purchasing it from me.

THE DANISH SKRÅ-TRØJE (2-DAY INTENSIVE) TAUGHT BY BETH BROWN-REINSEL

Date & Time	Price	Materials Fee
May 13-14• 9am-4:30pm	\$300	\$2 (paid directly to teacher at event)
Skill Level: Advanced	Prerequisites: Students must be comfortable working with two colors in a round on double-pointed needles, Magic Loop, or two circulars.	

Description: This remarkable Danish garment was created at the end of the 1800s. It is unusual in that most Danish knitting at that time was of one color, while this Skrå-trøje was knitted in navy and white. In this class, a sampler will be knitted circularly to explore the following techniques: working from a chart, working with two different sizes of yarn, seam stitches, the main motif, the underarm half gusset, working with a yarn in each hand or with 2 yarns in the left hand, purling in pattern with two yarns on the wrong side of the garment, creating a front slit, creating facings, a twined knitting braid on the cuff, an overlapped cuff slit and assembly. Designing a Skrå-trøje and weaving yarns to eliminate long floats in the back of the work will also be covered. On day one, we'll cover the construction of this historic garment and you'll knit the lower body from a chart. Working in a variety of styles with two yarns will be demonstrated, as well as weaving. Knitting the upper body will begin later in the day. Twined knitting will be covered in order to knit the cuffs. You'll work the sleeves and assembly on the second day, including the knitted shaped neck facing and trim around the neck.

Students Should Bring: Main Color (MC): 50 g (1.75 oz.) medium to dark worsted weight yarn (preferably wool), Contrast Color (CC): 50 g (1.75 oz.) light or white fingering yarn (preferably wool), Several yards each of red and navy (or other contrasting colors) fingering yarn (preferably wool). (Note about yarns: This garment was made with worsted and fingering weight yarns as specified above. Brown Sheep Nature Spun yarns are available in worsted, sport, and fingering, Rauma yarns are available as DK (Strikkegarn and fingering (Finullgarn)). If you are unable to find the yarns above, you may use one sport and one worsted weight yarn, or even 2 worsted weights. Don't stress about it!). Needles: US sizes 2 (2.75 mm), 3 (3.25 mm), and 4 (3.5 mm) double pointed needles, 8" long or shorter, US size 4 (3.5 mm) 16" circular needle. (You may use two circs or one for the magic loop if you prefer.) Notions: St markers, st holders, scissors, tapestry needle, D crochet hook, sticky notes or magnetic board to keep your place on the chart. *Optional:* Two 1/2" buttons and a clasp.

Homework: The Ribbing: With size US 2 (2.75 mm) dp needles and CC fingering yarn, cast on 80 sts. Join circularly, and place a marker to indicate the beg of the rnd.
Rnds 1-4: *K4, p4; rep from *.
Rnds 5-6: Knit in CC.

Skill Level: Intermediate	Prerequisites: Helpful to have experience knitting lace and reading charts	

Description: The lace knitters in Haapsalu, Estonia have developed several interesting ways to make a triangular scarf. In this class, we will study the architecture of two different styles of triangular shawl: one, with its origins in the 1930s, begins at the top and works to the tip, and the other (developed in more recent times) where the starting point is the scalloped outer edge. Included will be unique patterns and embellishments found in this style of knitted lace. You'll also learn how to attach a decorative scalloped edge by sewing in the traditional method, some history behind this lovely tradition and how to design both styles of scarves.

Students Should Bring: #3 (3.25mm) and #4 (3.5mm) 24in circular needle and set of #3 (3.25mm) and #4 (3.5mm) 8in to 10in (20 to 25mm) single point needles, wood or bamboo preferred, for all needles, 2 8in (20mm) #3 (3.25mm) and #4 (3.5mm) double point needles, at least 2 markers, 1 coil-less pin, tapestry needle. INTRODUCTION TO BRIOCHE KNITTING (3 HOURS) *TAUGHT BY MERCEDES TARASOVICH-CLARK*

Date & Time

May 15 • 9am-12noon

Price

\$99

Materials Fee

\$3 (paid directly to teacher at event)

Skill Level: Intermediate

Prerequisites: Knowledge of basic knitting skills, including increasing, decreasing, and yarnovers.

Description: Learn the brioche stitch, which creates rich, reversible textures and lofty, insulating fabrics. You'll discover how to use flexible cast-ons, choose yarns, work basic shaping and make neat bind-offs to use on your brioche projects, as well as knitting brioche in the round. Caution: this stitch is addictive!

Students Should Bring: Smooth worsted weight yarn in a light solid color, double pointed or 32" circular needle in size US 5 or 6, stitch markers, locking stitch markers.

INTRODUCTION TO DOUBLE-KNITTING (3 HOURS) *TAUGHT BY ALASDAIR POST-QUINN*

Date & Time

May 15 • 9am-12noon

Price

\$99

Materials Fee

N/A

Skill Level: Beginner

Prerequisites: You need only be comfortable with the long-tail cast-on and basic knit and purl; previous experience with colorwork is also helpful but not necessary.

Description: Double-knitting is a unique method of making a fabric with no "wrong" side and a built-in reversible colorwork pattern. Significantly different from the standard intarsia and Fair Isle colorwork that are so well known, double-knitting is a labor-intensive but wholly worthwhile technique to have in your repertoire. In this workshop, you'll learn Alasdair's 2-color cast-on for double-knitting, get comfortable with the techniques involved, then move into colorwork. At the end of the workshop, you should have a motif swatch and be confident that you can tackle a larger standard double-knitting pattern.

Students Should Bring: 2 contrasting colors of plain yarn in the DK to worsted weight range and a pair of straight or circular needles in the proper size.

LOVE YOUR LACE! (3 HOURS) *TAUGHT BY ANNIE MODESITT*

Date & Time

May 15 • 9am-12noon

Price

\$99

Materials Fee

N/A

Skill Level: All Levels

Prerequisites: Knitter must be able to knit, purl and decrease comfortably.

Description: Learn the basic theory behind knitting lace, and perfect your lace chart reading skills. Written instructions can have typos, but with a chart, what you see is what you get, which is why it's the best option for knitters who want to "see" what their lace will look like before they take up their needles. In this class, we will knit a few simple lace panels, and move onto a more difficult lace pattern for those who feel ready for a challenge. This class could change your entire knitting outlook!

Students Should Bring: Light colored worsted weight yarn, needles to work well with yarn

SUCCESSFUL KNITTING WITH HANDPAINTED YARN (3 HOURS) *TAUGHT BY CHERYL POTTER*

Date & Time

May 15 • 9am-12noon

Price

\$99

Materials Fee

N/A

Skill Level: All Levels

Prerequisites: None

Description: This hands on class focuses on the delights and downfalls of creating and finishing knitted garments with handpainted yarn. We will discuss and examine typical problems such as stacking, pooling, striping and knitting with yarns that look dramatically different, although they may be labeled the same dyelot. We will explore how to insure two socks look alike, two sweater fronts look alike and what to do when you run out of yarn for a specific project. Another consideration will be how to select a contrast or complimentary solid to use in a finished piece. Finally, we will look at different constructions such as toe up, top down, intarsia, Fair Isle, knitting flat or knitting in the round as well as modular and diagonal constructions to discover how to let the yarn work for you.

Students Should Bring: basic knitting tools and some handpainted yarn they would like to experiment with

Price

\$99

Materials Fee

N/A

Skill Level: All Levels

Prerequisites: None, although best suited to knitters with some experience working from patterns.

We will look at examples of how color and yarn choice can effect garments, explore the different dye styles of yarn and how to tell what type of style you have before you start knitting. Finally, we will explore how using the different dye techniques with various construction options can significantly affect your finished project. You'll come away from this presentation with more confidence in how you choose yarns for a specific project and how to use yarns in constructing garments. Even if you have some experience in working with handpainted yarns, this session will bring a few new tips and tricks as well as ideas that will expand your art.

Skill Level: All Levels

Prerequisites: Student should know how to knit and purl.

Description: Christened "combination knitting" by Priscilla Gibson-Roberts in Fall 2000 issue of *Interweave Knits*, this combination of Western and Eastern style knitting is faster, creates a nicer tension with less "rowing out" and less wrist strain. Established knitters may enjoy this different method and new knitters can mistress this right away!

In a single swatch, you'll learn multiple techniques for double-knitted standard twisted and traveling cables. If there is time, Alasdair will show you how to make reverse-stockinette double-knitting to give you a proper purl background for your cables to travel over.

Students Should Bring: 2 contrasting colors of plain yarn in the sport to DK weight range and a pair of straight or circular needles in the proper size or a size or two larger.

Homework: If you're not already familiar with my cast-on, please learn it before the workshop so we can move right into new techniques. The cast-on we'll be doing is subtly different from the one currently online but it's best if you have a solid foundation. \$194

Materials Fee

\$20 (paid directly to teacher at event)

Skill Level: Beginner

Prerequisites: Be able to follow verbal directions and knit at the same time

Description: Beads may be glamorous or primitive, glitzy or rustic, delicate or bold. They invariably impart a texture and dimension to our knits. Whether added on spontaneously as we knit, added on after the fact, or planned and mapped out ahead of time, the results will always garner attention and admiration. KNITTING SOCKS FROM JAPANESE PATTERN BOOKS (6 HOURS) *TAUGHT BY DONNA DRUCHUNAS*

Date & Time

May 15 • 9am-4:30pm

Price

\$194

Materials Fee

N/A

Skill Level:

Intermediate

Prerequisites: Knitters should have experience knitting several pairs of socks on double-pointed or circular needles and understand the basic construction of a sock (cuff, calf, ankle, heel, heel turn, instep, foot toe).

Description: Japanese knitting books are hot right now. Although the patterns are written entirely in Japanese, they are not impossible for American audiences to read. Very light on text and very heavy on charts and schematics, with a cheat sheet of translations, any adventurous knitter can enter the world of Japanese knitting. In this class we will learn how to understand Japanese sock patterns, focusing on the charts and schematics. Because Japanese patterns usually are written for one size, we will also discuss how to resize the patterns. In addition, we will learn a few interesting Japanese stitches and techniques that can be used to add an extra level of finesse to any project.

Students Should Bring: About 50 yards of worsted or sport weight yarn and size 7 or 5 needles for swatching. Pencil and eraser, calculator, basic knitting tools.

LEARN THE PORTUGUESE STYLE OF KNITTING (6 HOURS) *TAUGHT BY ANDREA WONG*

Date & Time

May 15 • 9am-4:30pm

Price

\$194

Materials Fee

\$7 (paid directly to teacher at event)

Skill Level: Beginner

Prerequisites: Students should know how to cast on, knit, purl, bind off and work flat and circularly.

Description: During this workshop, knitters will have the opportunity to learn and practice the style of knitting Andrea Wong learned as a 7 year old growing up in South America. The main characteristic is that the yarn is either wrapped behind the neck or looped the through a pin attached to the shoulder in order to maintain a tension which is constant. This style is very efficient and easier on your hands. The advantages of knitting this way are: It's faster than either the American or Continental styles; It requires less hand movement (great for those suffering from Arthritis or Carpal Tunnel Syndrome); It helps maintain constant tension, even for beginners; Purl stitch is easier than knit stitch.

Students Should Bring: Worsted weight yarn in 2-3 different colors, size US 7 or US 8 needles to practice. Worsted weight yarn and size US 5 16 inches long for project.

MAKING AN ESTONIAN LACE SAMPLER (6 HOURS) *TAUGHT BY* NANCY BUSH

May 15 • 9am-4:30pm	\$194	\$10 (paid directly to teacher at event)
Skill Level: Intermediate	Prerequisites: Knowledge knitting lace and reading charts helpful	

Description: In Estonian lace knitting tradition, patterns were recorded by knitting them into a long sampler or by a collection of small sample pieces. In this class we will study this tradition and make our own sampler of Estonian lace patterns. Techniques will include making the small bobble, called “nupp” in Estonian, which adds texture and definition to these lovely patterns.

Students Should Bring: US #3 (3.25mm) and US #4 (3.5mm) 10in single point wood or bamboo needles. Basic knitting supplies including stitch markers and a blunt point wool needle. A magnetic board for reading graphs is helpful.

WITH FLYING COLORS (6 HOURS) *TAUGHT BY* KATRINE WOHLLEBE

Date & Time

May 15 • 9am-4:30pm

Price

\$194

Materials Fee

\$2 (paid directly to teacher at event)

Skill Level: All Levels

Prerequisites: Knit and purl, casting on and binding off, increasing and decreasing. Knowledge of different colorwork techniques is helpful, but not essential.

Description: Are you insecure about incorporating color into your knitting? In this class, you will get a basic understanding of colors and how they work together, as well as suggestions for using this knowledge in your knitting. We will begin with a short introduction to traditional color theory centered around the color wheel and how to match up colors. Then we will work with a couple of other ways to look at color that knitters have come up with, and how they correspond with the color wheel theory. Using the yarns everyone has brought into class, we will be grouping colors together in various ways and discussing the results. We will be doing "color wraps" and simple striped swatches to test our color combinations, and we will discuss various knitting techniques appropriate for working with color. (*Note:* This is not a colorwork technique class; instead we will focus on "coloring mechanisms" and how to choose and apply colors.)

Students Should Bring: 5-10 different (solid)colored yarns (the yarns can be different weights and types, and leftovers are fine), needles of your choice in various sizes, blank paper, colored pencils, usual knitting utensils, 5 cardboard strips 2 x 5", scotch tape or glue. Learn about these and how they differ from other two color stranded work and intarsia while you knit a head band. Continental knitting, corrugated ribbing, carrying both colors in one hand or one in each hand, and catching floats, will be covered as well as the history of Fair Isle knitting.

Even though this is a true mobius, you don't have to be content with it, but can manipulate it so both the top and bottom portions come out to be the right side of the stitch pattern. Try some short row shaping, or binding off a portion to make something other than a scarf or stole.

SHAPED INTARSIA (3 HOURS) TAUGHT BY DANIELA NII

Date & Time

May 17 • 1:30pm-4:30pm

Price

\$99

Materials Fee

N/A

Skill Level: Intermediate

Prerequisites: Basic intarsia knitting knowledge, knit, purl, increasing, decreasing, cast on, bind off.

Description: You may have noticed when knitting diagonal lines in intarsia you create characteristic jagged, stair-step edges along the color changes. This becomes even more pronounced as you increase the yarn thickness. The technique of shaped intarsia will use various combinations of increases and decreases to smooth out those stair-steps and allow you to create smooth lines and even sweeping curves like in modern art. Students will learn and practice various types of increases and decreases and how to combine them to achieve different effects. The color change will become a design element and you will be able to not only knit pictorial but also modern art-inspired designs.

Students Should Bring: Smooth, solid-colored, worsted weight (#4) yarn in three (3) light to medium contrasting colors so that we can see our stitches; knitting needles suitable for your yarn.

Materials Fee

N/A

Skill Level: Intermediate

Prerequisites: Previous double-knitting experience required—you should either have taken Alasdair's Introduction to Double-Knitting workshop in person or on Craftsy, or have done some other double-knitting colorwork on your own or in another workshop.

Description: This workshop will get you comfortable with one of the "extreme" double-knitting techniques that I have developed. Students Should Bring: 2 contrasting colors of plain yarn in the DK to worsted weight range and a pair of straight or circular needles in the proper size.

Homework: Bring a chart on graph paper of a letter or some other asymmetric design at 15 rows by 15 columns or less. If you forget, I'll have a few letter charts you can use. If you're not already familiar with my cast-on, please learn it before the workshop so we can move right into new techniques. The cast-on we'll be doing is subtly different from the one currently online but it's best if you have a solid foundation. You can find a video tutorial on Youtube at <http://www.youtube.com/watch?v=GQpsC1FKGrU>. Also, please bring a sample or photo of your previous double-knitting work, if handy.

ARGYLE SOCKS (6 HOURS) *TAUGHT BY ANNE BERK*

Date & Time

May 17 • 9am-4:30pm

Price

\$194

Materials Fee

N/A

Skill Level: Intermediate

Prerequisites: Knit, purl, and follow charted designs. Experience with the intarsia technique will be helpful, but not required.

Description: Argyle socks are associated with the Scottish culture since 1500, but they took America by storm post-WWII. The argyle fad lasted into the 1950s, and arguments raged about proper technique. The resulting competitive atmosphere may have contributed to the craze burning out. In the 1980s interest revived, but mostly with machine-knit argyle patterning. Today, hand-knitters have rediscovered this always-flattering style. Argyles are an ideal medium for practicing intarsia technique, and have a universal and timeless appeal.

Students Should Bring: Yarn: stash of smooth sock yarns in at least 3 colors. I recommend solid colors with as much contrast between colors as possible and of equal weight. It is easier to see your joins and the development of the pattern if there is a big contrast of color. Needles: Size appropriate for your yarn. Long dpn's or straight needles are easier than using circular needles. We will be working flat knitting.

Homework:

Piece #1: Using yarn that you will use as Main Color for your argyle practice sock, Ribbed border: Cast on 34 sts. Work K1, P1 ribbing for about 1 ".

Piece #2: Note: This piece will be used only to demonstrate the unique construction when knitting a sock flat. There will be no argyle pattern in this piece. Therefore, if you find it easier to use larger yarn and needles, feel free to choose that option for this knitting. You will just end up with a larger practice sock. Ribbed border: Cast on 34 sts. Work K1, P1 ribbing for about 1 ". Sock Body Knit in stockinette for 30 rows. Row 30 (RS): Place the first 9 sts on a holder. Knit the center 16 sts (the instep sts) , and place the last 9 sts on another holder. Continue to work the center instep sts in stockinette for 15 rows. Place the center sts on a holder. (45 total rows)

Price

\$99

Materials Fee

Skill Level: Intermediate

Prerequisites: Students should have some experience working with two yarns in a row.

Description: The Norwegian Purl, a variation of the conventional Continental purl, is noted for its superior tension control, and ease of execution. The yarn always stays behind the work, making ribbing a breeze and two-color textured knitting a pleasure. A swatch will be knitted in class to practice this technique and its applications: Proper tensioning of the yarn, the conventional Continental purl and knit stitches, the Norwegian purl, purl garter stitch, ribbing with the Norwegian purl on the right side and on the wrong side, the Scandinavian method of working with two yarns in the left hand (knitting, purling, and weaving the floats) on the right side and the wrong side of the work, as well as corrugated ribbing on the right side and the wrong side of the work.

Students Should Bring: Two contrasting colors of the same weight yarn, either sport or worsted weight, a pair of appropriately sized circular or short straight needles. (Example: Size 4.5 mm or 5 mm for worsted yarn, size 3.75 mm or 4 mm for sport yarn.)
