

Open Meeting of Working Group on Regional Simulation of Hurricane and Tsunami Hazards

November 3, 2002 (2:00 - 4:30 pm)

Location: TBD (TACC)

Working Group Members: Tracy Kijewski-Correa (lead), Andrew Kennedy, Patrick Lynett, Michael Motley, Mohammad Alam

Purpose: Engage both current and potential future users of SimCenter tools in a discussion on priorities, needs and opportunities to best support their research on regional simulation for hurricane and tsunami hazards through shared computational research infrastructure

AGENDA

2:00 - 2:15 pm	Table Setting [T. Kijewski-Correa] <ul style="list-style-type: none">• Introductions of attendees and Working Group members• Goal and philosophy of SimCenter with respect to development and community building• Objectives for regional simulation tools at the SimCenter
2:15 - 2:45 pm	Discussion Segment 1: Most Compelling Research Questions for Regional Simulation Hurricane and Tsunami Hazards [P. Lynett]
2:45 - 3:15 pm	Discussion Segment 2: Computational Simulation Pain Points & Opportunities [M. Motley] <ul style="list-style-type: none">• Wind Hazards (Inventory to Losses)• Coastal Hazards (Inventory to Losses)• Leverage Points for Existing SimCenter Tools
3:15 - 3:45 pm	Prioritization Exercise & Action Plan [T. Kijewski-Correa]
3:45 - 4:15 pm	Feedback Loop: Preview of Utility Applications for Discussion & Feedback [A. Kennedy]
4:15 - 4:30 pm	Closing & Gratitude [T. Kijewski-Correa] <ul style="list-style-type: none">• Next Steps• Getting involved• Reception to follow
