Health Technology and Telemedicine Competition for Young Innovators 2014

This international contest for young entrepreneurs and start-up firms focusing on new innovative ideas in the field of health IT and telemedicine, took place during the European Telemedicine Conference. The committee selected three finalist projects: first place, "Eir" from Denmark; second place, "Hispanis Health" from Spain; third place "SmartCare" from Italy.

"Eir" from Denmark, the winners of the HTComp for Young Innovators Competition
