INHSU 2015

In October 2015, the 4th International Symposium on Hepatitis in Substance Users (INHSU 2015) will be held in Sydney, Australia.

This symposium is the leading International conference focused on the management of hepatitis among substance users. It is organized by the International Network for Hepatitis in Substance Users (INHSU). The symposium is held biennially and was first held in Zurich, Switzerland, in 2009, Brussels, Belgium, in 2011 and Munich, Germany, in 2013.

The International Symposium on Hepatitis in Substance Users attracts delegates including health professionals (including doctors, nurses and allied health), researchers, community organisations, people who use drugs and policy makers.

This year's conference will focus on issues related to: 1) HCV epidemiology, screening, assessment; 2) HCV treatment and care; and 3) HCV treatment access and implementation among substance users.
