City Vintage Tram Tour

You will depart by coach from the Basel Congress Centre to the main train station, where you will board a vintage tram. The tram has long been an important element of Basel life. The journey will give the impression of what it was like to travel around the city a hundred years ago, and all the authentic sounds of yesteryear can be heard, as you rumble along in the old tram. Once the journey is complete, a coach will be waiting at the train station to return you to the Congress Centre.
