Awaken Student Effort

Imagine the possibilities if you could get more **effort** out of your students

LOOKING DEEPER THAN ACADEMIC PERFORMANCE

THE NONCOGNITIVE FACTORS THAT AFFECT STUDENT PERFORMANCE

If it were as easy as telling students to show up to class, study harder, and write better, wouldn't everyone have figured that out already?

Instructor 9:37AM 07/28/2017

Beverly- Wanted to let you know that I appreciate your willingness to step up and work on the assignments and catch up! You really showed how to persevere this module. :)

Student 1:45PM 07/28/2017

Thanks for the encouragement. Sometimes all of the school work overwhelms me, but knowing that I am so close to getting my degree, makes me what to believe that I can and will succeed in with this challenge. During the next 3 months, I will be completing my degree program, starting my externship, and training to return to H & R Block as a Tax Specialist. So, thanks again for your encouraging words.

Instructor 2:46PM

08/01/2017

I hope that the value talk yesterday helped to bring the pieces together for you. Always know that I am rooting for you.

Student 3:58PM 08/01/2017

You will never guess what happened on my first day into my Externship. My supervisor mentioned that they are currently working on PI. Can you believe that? I thought it was more than a coincidence, so again thanks to your wonderful guidance this past five weeks, I can start applying what I have learned.

Instructor 6:04PM 08/01/2017

That is so cool.

Instructor 6:05PM 08/01/2017

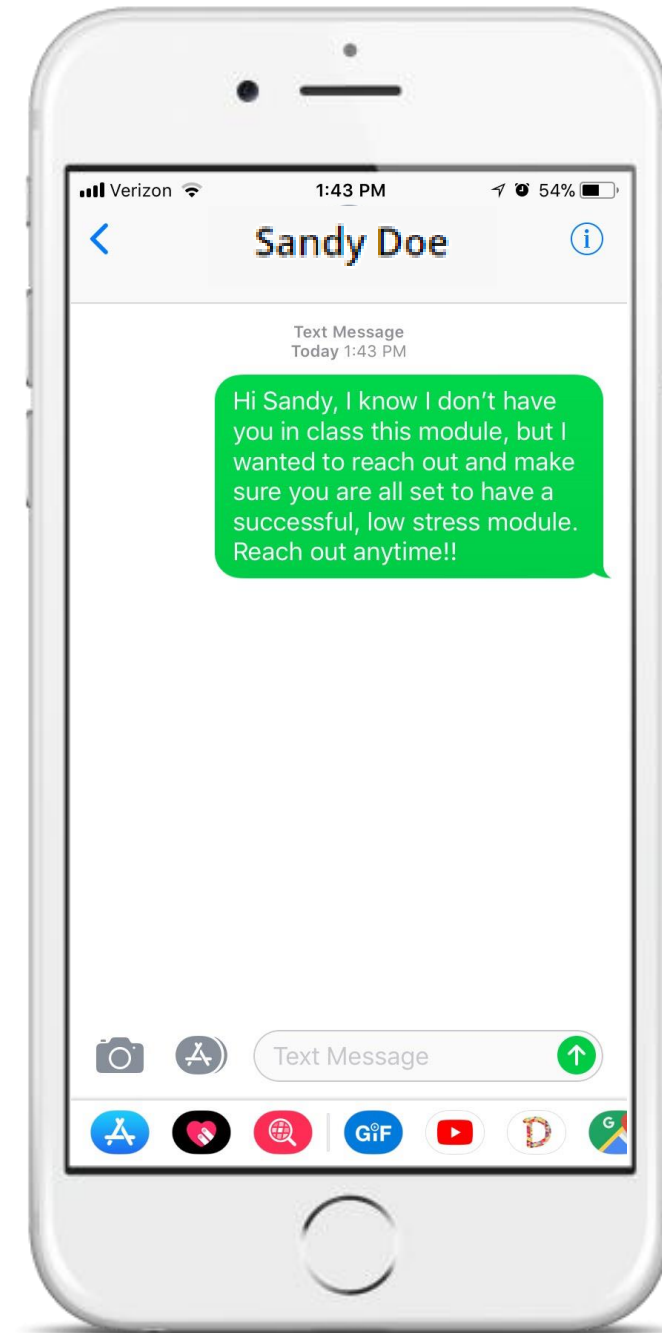

Do you mind if I share your story?

Student 8:36PM 08/01/2017

By no way do I mind you sharing my story. You have my blessing. You have not heard the last from me. You will be one of my Instructors that I will always try to keep in touch with. You gave me courage, you motivated me, along with the Director of the HIT Program, to believe in myself, and great things are possible.
