## BREAKOUT SESSION

2:25PM

## Security Innovations — Case Study

Last year Port Angeles School District Nolan Duce attended the URS/Pelco presentation on "Advanced CCTV" to learn more about an upcoming CCTV project for the school district.

The case study will review the process the school district used to determine the scope of work/bill of materials, the procurement process via Washington State Contract #03907, installation and then finishing with start-up and end user training. The presenters this afternoon will be:

Mark Twietmeyer  
URS ELECTRONICS

Steve Rice  
PELCO BY SCHNEIDER ELECTRIC

Nolan Duce  
PORT ANGELES SCHOOL DISTRICT

WED  
May 8<sup>th</sup>

## HOT SHOP

3:25PM

URS Electronics and Pelco by Schneider Electric will demonstrate the latest in Thermal imaging for CCTV applications. Items being showcased will include Digital Sentry video management system on a Digital Sentry Server, Spectra HD PTZ camera and various Sarix IP Megapixel fixed camera's

# PELCO SECURITY CAMERAS & SURVEILLANCE SYSTEMS

Pelco by Schneider Electric is featuring their new High-Resolution Sarix TI™ Series Thermal Imaging (TI) IP cameras. Adding to its popular line of existing thermal imaging surveillance technologies, the Sarix technology platform provides a digital end-to-end IP solution that allows for easy integration into a wide variety of third-party systems. The High-Resolution Sarix TI Series IP cameras are available in fixed or pan/tilt enclosures designed for outdoor deployment. The camera is available with four lens configurations: 6.25mm, 14.25mm, 35mm, 50mm, and 100mm focal lengths.

## STEVE RICE

ph. 253.459.9665  
steve.rice@schneider-electric.com

Steve Rice is the General Manager for Pelco by Schneider Electric in the PNW. Steve has been in the security and structured cabling industry for 15 years and has had assignments from the Midwest to Europe. Steve has been with Pelco by Schneider for two years after being a District Manager and Regional Security manager at a global distribution company in the PNW. Steve's experience ranges from campus and retail security application to fiber optic and structured cabling in data center. Steve is a Graduate of WSU and served as an Army officer overseas directly out of college.

# URS ELECTRONIC

URS Electronics is a wholesale distributor of electronic components based in Portland, Oregon. Established in 1935 to support the emerging Radio/TV industry, URS continues to sell electronic components into three major markets (Government, OEM and Industrial). URS inventories over 10,000 part numbers in our Portland warehouse with focus on CCTV equipment, Wire & Cable, Terminal Blocks, UPS/Networking and electro-mechanical products.

To support our Government customers, URS has four (4) contracts with inter-governmental cooperative purchasing language allowing Pacific NW agencies access to pricing agreements that was competitively bid. Our contracts include:
